

DELGARD®

PREMIER ALUMINUM FENCING

Delgard Premier Aluminum Fencing provides an elegant and stately accent to any home or workplace. For almost 20 years, Delgard has offered the traditional beauty of wrought-iron without the costly and time-consuming maintenance required of other fencing systems. Delgard starts with raw aluminum, a special Titanium-bearing alloy and fabricates it into a durable and distinguished product that will accent any home or property. Plus, every Delgard fence features the exclusive **Diamond Kote 10,000™** paint finish and a **limited lifetime warranty** against cracking, chipping, and peeling.

Delgard is available in 7 heights, 5 different colors, and 3 grades, Residential, Aero, and Commercial.

Residential...

Delgard Residential grade is a perfect choice for swimming pool enclosures and perimeter fencing. Matching gates are available in widths of 36", 42", 48", 60" and 72" and feature our **patented self-closing hinges** and the new Versa-Latch or Magna Latch.

Aero...

Delgard's Aero grade provides the comfortable look of Residential fence with added strength and durability. Aero's unique versatility makes this fence a great choice for swimming pool enclosures, estate fencing, golf courses, and housing developments. Matching gates are available in widths of 36", 48", 60", 72", 84" and 96" and feature our **patented self-closing hinges** and the new Versa-Latch or Magna latch.

Commercial...

When you need additional strength and security, turn to Delgard's Commercial fencing system. Parking lots, play centers, manufacturing facilities, and community swimming pools are just a few of the commercial locations that utilize Delgard Commercial grade. Matching swing gates are available in widths of 36", 42", 48", 60" and 72". Larger swing gates and cantilever gates are also available.

DELGARD STORY 21

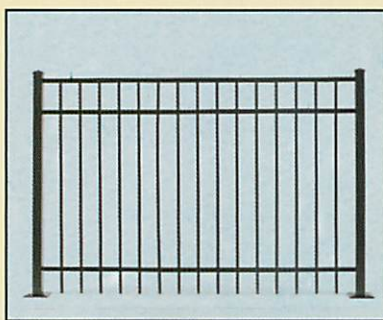

Introduction

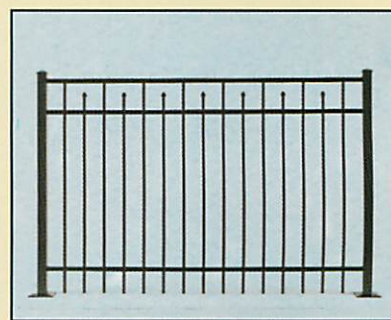

With so many styles from which to choose, the easy part is selecting Delgard; the hard part is choosing from all of the beautiful options. To customize your fence, add decorative accessories such as finials, ball caps, scrolls or circles. Use the images below as well as the photos throughout the brochure to determine which combination works best for you. Mix and match...who knew choosing fencing could be so much fun?

Residential.

The residential grade offers the classic look of a narrow picket and horizontal rail. It is best suited for swimming pool enclosures or as decorative perimeter fencing around most homes. To complement your landscape or simply keep your children and pets close to home, this is an ideal choice.

Delgard's Residential grade features 5/8" square pickets, 1" square rails, and 2" square posts. All fence sections come pre-assembled in 6' lengths.

Residential

Styles

Residential Grade comes in a variety of style options, offering the classic look of wrought iron without the costly annual maintenance.

Aero..

Available only from Delgard, Aero has redefined ornamental fencing. When only the best will do, Aero is it. Swimming pool enclosures, estate fencing, golf courses and new home developments are just a few of the many applications where this grade is not only functional, but actually enhances the appearance of the property.

Delgard's Aero grade features 1" x 5/8" rounded pickets, 1 1/2" x 1 1/8" rounded rails, and 2 1/2" rounded posts. All fence sections come pre-assembled.

Aero

Styles

Aero Grade offers beauty, versatility and is recognized for the light appearance of residential grade with much of the strength of our commercial grade. Post spacing is every eight feet for enhanced visibility and easier, less costly installations.

Specialty Gates..

Delgard's Specialty Gates are a perfect way to highlight your property or landscape. With a full selection of high-style gates, from classic to modern, there is sure to be an arched gate to fit your needs. In addition, our commercial gates are compatible with most gate operating systems, so they can be operated remotely from a central location, adding increased security.

Specialty Gates

Cantilever Gates

For almost 20 years, Delgard has been a leader in ornamental maintenance free aluminum fencing. Delgard continues its tradition of innovation with its new and improved cantilever gate system. The Delgard Design Team listened to many contractors around the country and performed hours of field research to come up with its innovative and effective system.

This system boasts a free form design that allows multiple styling options including availability of arch top and estate styles. The unique styling of the gate gives it the traditional look of a classic wrought iron double swing gate. However, not everything is about looks with this system. The gate utilizes an innovative bottom support track that lowers the center of gravity providing greater stability and ease of motion. Delgard's modular design also allows for ease of transportation and quick on-site installation.

Innovation, strength, ease of installation, durable and smooth operation, plus Delgard's standard of beauty make Delgard's cantilever gate system unsurpassed in the industry.

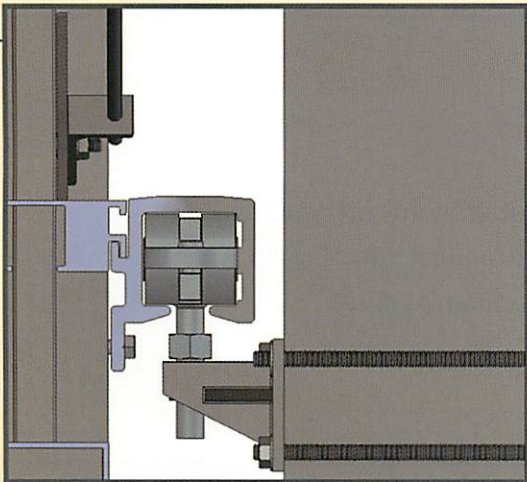

BRONZE MADRID ESTATE CANTILEVER GATE

Modular design

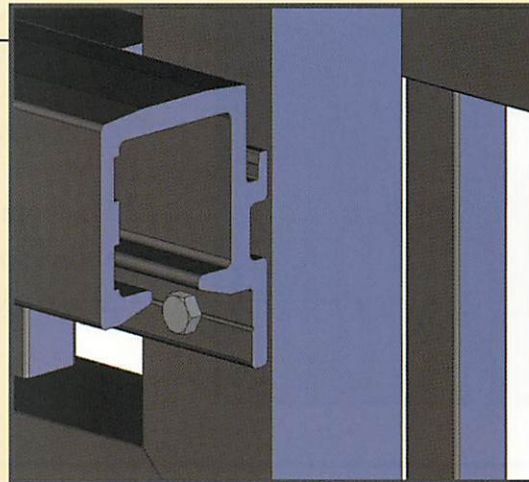

- Modular design makes transportation to the job site easy
- Modular design and simplified assembly allows for quick on-site installation with much smaller crews than traditional cantilever gates
- Innovative design allows for single gate opening up to 30 feet

Solid Construction

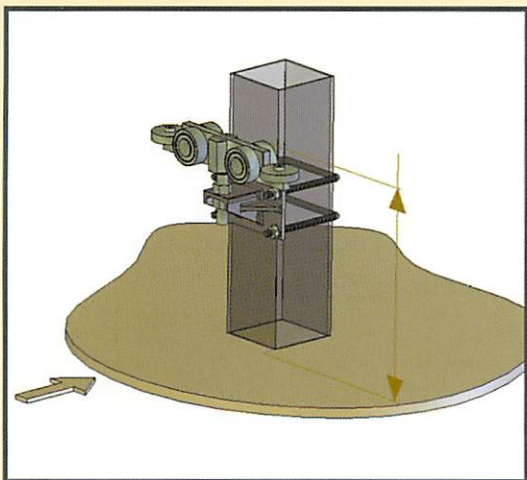

- All structural elements are built from 6061-T6 alloy aluminum which carries nearly double the yield strength of 6063-T5 alloy aluminum (the industry accepted standard for Aluminum Cantilever gate material)
- All moving hardware is located on the back side of the gate reducing front facing pinch-points and allowing greater flexibility when installing behind existing structures
- Bottom support track lowers center of gravity providing greater stability and ease of motion
- Enclosed guide wheel track protects rubber guide wheels from elements and reduces pinch points
- Adjustable truss support system allows for field calibration

The Delgard Difference

Paint Finish

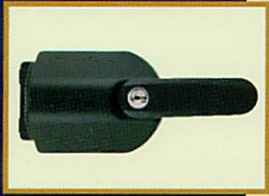

Only Delgard uses the exclusive **Diamond Kote 10,000™** paint finish that has a limited lifetime warranty not to crack, chip or peel. This environmentally safe process includes some Delgard secrets that have been improved over time, and the steps include:

- High Alkaline cleaner that prepares the surface and then
- A fluoride based, acidic process to further condition and clean the material, and finally an
- Application of a polymer primer that promotes adhesion and inhibits corrosion.

Gate Hinge

Delgard has designed and manufactured a **patented self-closing hinge** that is the envy of the fence industry. Each hinge is made with an adjustable spring in a durable yet slim wrap-around design to ensure years of reliable closing.

New Versa-Latch

The new Versa-Latch is another first-of-a-kind innovation from Delgard and its long-time partner, the makers of the Magna Latch. The Versa-Latch features a magnetically activated mechanism in addition to a keyed lock for even more security. This low friction latch is more reliable, self-latching and highly effective. The Versa-Latch now comes standard with all of Delgard's walk gates except Guardian Series which uses the Magna Latch.

Gate Specifications

Delgard has completely redesigned its gates using more aluminum and stronger alloys. These redesigned gates are now 300% stronger for even better durability and stability.

The Delgard Story

Delgard has been the leader in maintenance-free ornamental aluminum fencing for almost 20 years. In that time, Delgard has continuously improved its products and manufacturing operations to deliver the industry's best products that will add beauty, security and value to any property.

Delgard's quality starts from the very beginning of the fence making process, the aluminum. You see, Delgard is part of the Arch America family of companies, a group that has been manufacturing high quality aluminum and building products for over 40 years. This relationship ensures that Delgard has a dedicated and unlimited supply of raw aluminum. In fact, **Delgard is the only aluminum fence manufacturer in the world capable of extruding its own aluminum.** Rest assure, you'll never have to worry about material shortages, and your products will always ship on time. In fact, Delgard offers several popular styles in its **Quick Ship Program.** No other manufacturer offers a program as extensive as Delgard's.

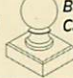

Our global alliances through the Arch America companies have helped to expand our production and sourcing capabilities to Europe, Asia and even Australia. The Delgard team's global reach means that your products are made to our exacting standards.

If you're looking to enclose your swimming pool, enhance your property or secure an area, choose Delgard for the ultimate combination of strength, beauty, and durability. From its commitment to total customer satisfaction, to innovative designs, Delgard is the finest fence available. To learn more about Delgard, visit their website at www.delgard.com.
